Webster**Needle Holder**

Length: 4 3/4in

Author: Dr Jerome Pierce
WebsterEST.
N/A

Needle Holder Webster 4 3/4in, Smooth, TC

Common Uses:

Plastic surgery, and Subcutaneous Procedures.

Primary Properties:

- Stainless Steel
- Smooth Jaw

Variations:

- Lengths: 4in-5in
- Tungsten Carbide

Function:

The Webster needle holder is designed for use with small needles and fine suture material. Its smooth jaws are more gentle on delicate needles.

Did you know?

Webster gained much of his experience in plastic surgery through federal service during the Great War, as most elite surgeons of this period had done.
